

## Wall cladding

**Self-declaration** that the named products comply with the requirements for wall cladding as per BREEAM-NOR's chapter HEA 9

This form must be filled out by the **MANUFACTURER** of wall cladding.

Wall cladding includes:

- Ready made wallpapers
- Vinyl and plastic wall cladding
- Wallpaper which is to be decorated
- Wall cladding for heavy duty
- Textile cladding

It is important that the information given here is correct, and we strongly encourage thoroughness in researching the extent to which emission testing and/or test reports show that the product complies with the standards and emission limit values required by BREEAM-NOR. If in doubt, the manufacturer should consult own internal and external experts. **Incorrect and misleading information can have legal consequences.**

**Once filled-out, the form must be signed by a legally responsible person from the manufacturer, e.g. a technical manager or a managing director.**

- 1) When assessing different types of emission certificates against the requirements in NS-EN 15251, you can find help on <http://www.breeam.org/page.jsp?id=27>
- 2) Please note that the emissions here are measured in mg/m<sup>2</sup>h. Most emission certificates use the unit mg/m<sup>3</sup>. It is possible to convert these units in order to compare the results. A laboratory of your choice can assist you.
- 3) Note that M1 is the only known emission mark classification which includes measurement of ammonia emissions.
