Approx. 50 – 65 ml/m²

750 ml sufficient for approx. 12 m²

2,5l sufficient for approx. 39 m²

Suitable for: Treatment of megawood® wood polymer products in indoor areas, for the maintenance and protection of surfaces, is hard-wearing and dirt-repellent.

Processing: The surface to be treated must be dry, clean as well as free from dust and grease. The maintenance product is thinly and evenly applied to smooth surfaces using a sponge or cloth and is subsequently wiped dry using a dry, soft textile cloth. The maintenance product is thinly and evenly applied to profiled surfaces using a brush and is subsequently wiped dry using a dry, soft textile cloth.

Storage: Store in a cool, frost-free environment and seal in an air-tight manner. Unopened containers can be stored for up to 5 years.

Application on PREMIUM & PREMIUM PLUS barefootboards

Application on CALSSIC barefootboards
